

Unfinished Parts

Tesla SQL Interview Question

Problem explained in simple words

Tesla has a table of parts being assembled. Each row shows a part, its assembly step, and finish date.

Task: Find the parts that are not finished yet (finish date is missing).

- Look for rows where `finish_date` is NULL.
- That shows the parts and steps still in progress.

.

SQL QUERY ->

```
SELECT
    part,assembly_step

FROM parts_assembly
WHERE finish_date is NULL;
```
